Chris Vivek T

Bengaluru, Karnataka | 8217218940 | chrisvivek.t@gmail.com | LinkedIn | GitHub

Professional Summary

Results-driven Full-Stack Developer with hands-on experience in AI agentic architecture, cloud deployment, and cross-platform mobile development. Proven ability to architect and deliver end-to-end solutions, from enterprise inventory systems to corporate web overhauls, leveraging modern frameworks like Next.js, React, and Spring Boot. Strong foundation in Data Structures and Algorithms with a passion for integrating generative AI into practical applications.

Technical Skills

- **Languages:** C++, Python, JavaScript
- **Frontend:** React.js, Next.js, Tailwind CSS, HTML/CSS
- **Backend & Databases:** Node.js, Express.js, Spring Boot, PostgreSQL, MongoDB, Supabase
- **Mobile Development:** Flutter, Firebase
- **Cloud & DevOps:** Amazon Web Services (AWS), Docker, Nginx
- **AI & Specialized Tech:** Agentic Workflows, Google Cloud Vertex AI, Gemini Models, Ollama, DaVinci Resolve

Professional Experience

Resolute AI
Junior Software Developer Intern | Sep 2026 – Present

- Actively learning and assisting in the development of AI agentic architectures to automate complex workflows.
- Participating in the integration of generative AI models and LLMs to build autonomous agentic systems.

Selected Projects

CMM Grid | Inventory Management System | *Next.js, Spring Boot, PostgreSQL, Supabase* | Apr 2026 – May 2026

- Architected and deployed a full-stack inventory management system for CMM Electricals to track electrical materials across warehouse and active project sites.
- Built the backend infrastructure utilizing Spring Boot and PostgreSQL, with a responsive frontend built on Next.js.
- Integrated Supabase for database management and implemented an analytics dashboard for real-time inventory tracking.

S-R Associates Corporate Platform | *React.js, Node.js* | Apr 2026 – May 2026

- Spearheaded the technical overhaul of the corporate website to improve load times and overall platform performance.
- Engineered custom authorization flows and integrated project management features to streamline internal business operations.

Cyber Connect | *React, Node.js, RBAC* | Mar 2025 – May 2025

- Built a comprehensive cybersecurity threat intelligence platform featuring role-based access control (RBAC).
- Integrated live threat feed data and engineered robust security middleware for the application architecture.

Education

Alliance University (Kalvium Program) | Bengaluru, Karnataka
B.Tech in Software Product Engineering(CSE) | 2024 – 2028

- An industry-integrated engineering program focused on practical, hands-on software development and real-world project building.
